CAB Update**

# WHICH DHS CLINICS ARE MEMBERS OF THE ACEs-LA NETWORK OF CARE

DHS initiated ACEs screening through CALQIC at 5 clinical sites in March 2020

- East San Gabriel Hub
- High Desert Regional Health Center Pediatrics
- H.H. Humphrey CHC
- Olive View-UCLA Hub
- Olive View-UCLA Pediatrics

In 2021, other DHS clinics heard about CALQIC's work and wanted to start screening too with support from the CALQIC-LA/ACEs-LA clinic leads

- Lomita Family Medicine Clinic
- Harbor-UCLA Pediatrics
- LAC/USC Pediatrics
- Hudson CHC

# Building a Network of Care in our Clinics and Community

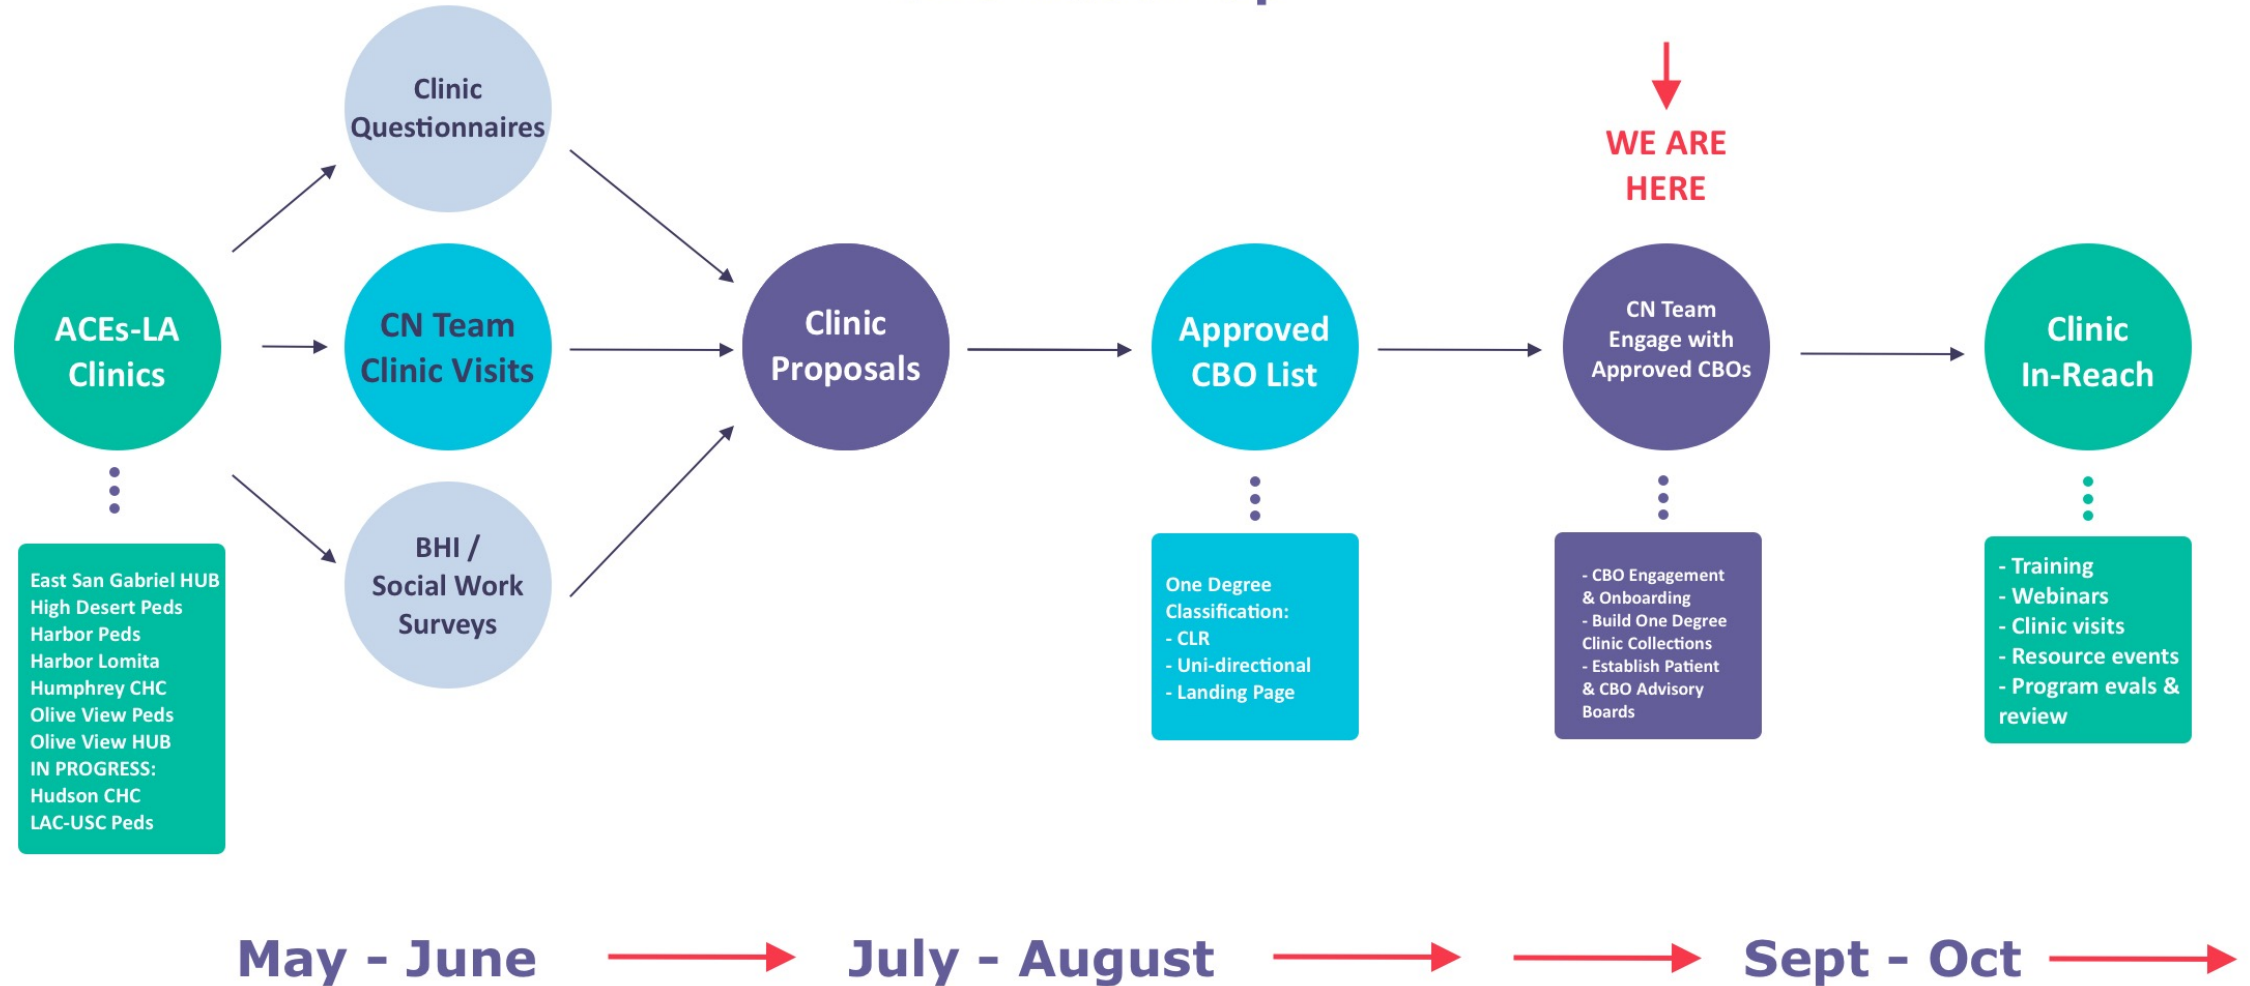

## Other Network of Care Stakeholders "Conveners"

# ACEs LA

## CBO Roadmap

# Current Network of Care Priority Activities

- CBO Engagement for all Network of Care DHS clinics
- Building One Degree collections for clinics
- One Degree Closed Loop Referral Testing (Jan 2022 launch)
- CAB
- Sustainability beyond our funding period
  - How do we maintain the relationships between DHS clinics and CBOs in the Network of Care
  - How do we continue conversations on improving referral pathways between DHS clinics and CBOs
  - If patient experience is improved through the Network of Care initiative, how do we sustain this experience beyond the funding period?

# What do we want to know?

## ACCESS

- Total referrals via One Degree from NoC clinics
- Number of closed loop referrals (CLR) via One Degree from NoC clinics
- Type of referrals/ reason for referral through One Degree

## ALIGNMENT AND QUALITY

- Number of CBOs in the Network of Care
- Percentage of NoC clinical team members and NoC partner CBOs reporting ease of sharing information across systems by virtue of participation in ACEs-LA (Provider reported via survey, Likert scale)
