We service:

Los Angeles, Glendale, Long Beach, San
Gabriel Valley and Orange County

The earlier your child gets help, the higher likelihood of mainstreaming into regular classrooms.

Why Choose Building Block Resolutions?

- All programs are tailored to the child's needs.
- We accept most insurances
- We specialize in Autism Treatment & Crisis Management
- Parent Coaching is included with all ABA packages
- We train emergency responders, teachers, HR managers, and other public servants to respond compassionately and effectively to crises

What is Applied Behavior Analysis (ABA)?

ABA or applied Behavior Analysis is a set of scientifically proven techniques to help improve behavior.

ABA can help:

- Academic, social and self-help skills
- Communication skills
- Replace problem behaviors
- Improve ability to focus

We offer:

- One-on One therapy
- classroom Interventions
- Home-based Therapy

What is Autism?

Autism Spectrum Disorder (ASD) is a complex group of disorders that affects the development of the brain. These disorders are characterized, in varying degrees by:

- Difficulties with social interaction
- Verbal and nonverbal communication
- Repetitive Behaviors

Although the cause of Autism is still Unknown, here is what we do know:

- According to the CDC autism affects 1 in 68 children in the United States.
- Autism affects boys four times more than girls
