CONNECTION

Connections: Intensive Outpatient Program (IOP)

Our program supports adolescents ages 12 to 17 seeking treatment for mental health and substance use issues. The program offers group, individual, and family therapy, along with case management, drug counseling, and parenting groups. Often referred to as an intensive therapeutic “after-school program,” the IOP level of care involves clients completing 3 hours of therapeutic services 3 days a week. The goal is to stabilize youth while providing them with youth-centered treatment and activities for healing. This drop-in clinic provides in-person treatment at Maryvale’s Duarte location.

Connections: School Connect

The Connections by Maryvale treatment team provides substance use counseling, as well as prevention and early intervention groups, to at-risk students in Los Angeles County School Districts during the academic year.

We engage them 1:1 and build meaningful and supportive connections that support early intervention and prevention.

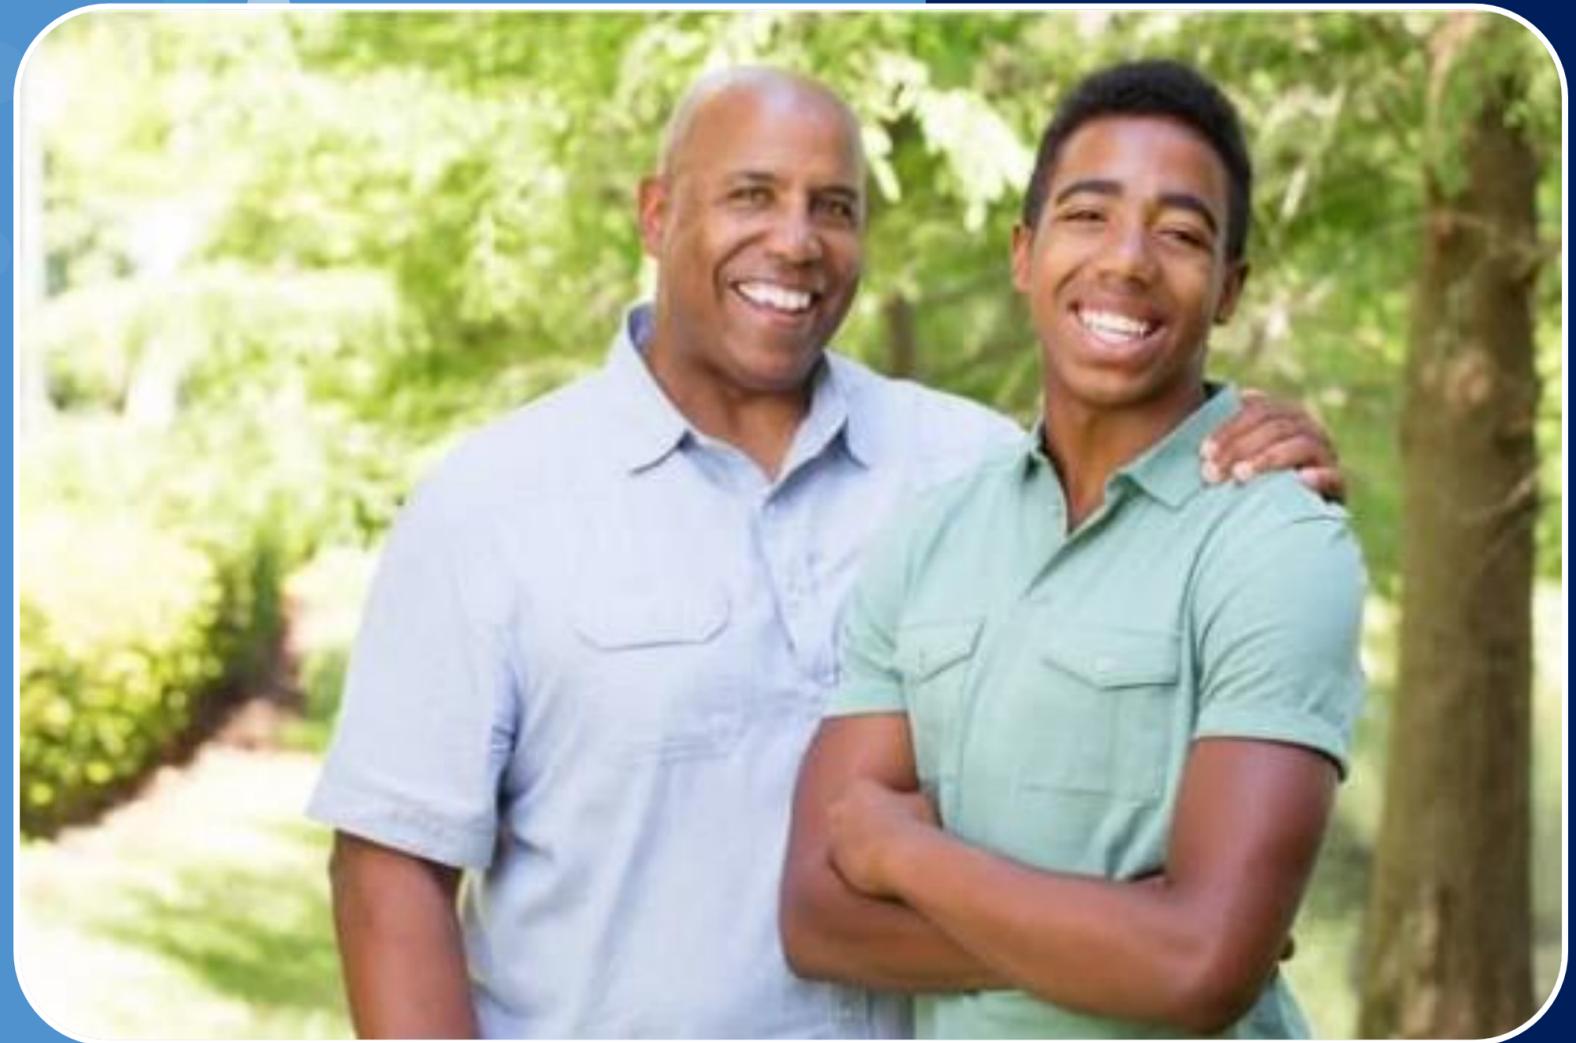

Connections: Youth Connect

The Connections by Maryvale treatment team offers weekly drug and alcohol education and prevention services to youth via telehealth, in partnership with Azusa Pacific University. This service is provided at no cost, and participants receive gift cards for their involvement.

Connections: Parent Connect

Parent Connect is an online program dedicated to supporting parents as they navigate raising children of all ages, providing a space to ask questions related to adolescent substance use and prevention, mental health, sexual health, communication, and building healthy relationships. This program is provided free of charge and runs biweekly.

Connections: Care Connect

Enhanced Care Management (ECM) is covered by Medi-Cal managed care plans at no cost to members. Our Lead Care Managers provide enrolled members with the resources and support they need to overcome life and health challenges. For instance, members may receive support with accessing mental health services, navigating transportation barriers, or linking to housing resources.

Recognized for Excellence & Impact

Nonprofit of the Year:
Assemblymember Blanca
Rubio SGV Reader's Choice
winner in 5 categories
