Location: ZOOM

COURSE OBJECTIVES

- Define psychoeducation as a prevention and intervention strategy in the context of sex and labor trafficking
- Explain features of human trafficking that amplify the value of psychoeducation in youth empowerment and establishing safety
- Identify 3 or more key elements of psychoeducation about trauma
- List 2 or more strategies for enhancing engagement of youth in psychoeducation
- Describe 3 or more strategies or resources and their use in psychoeducation

Certificates of Completion available!

Meet your trainer!

Dr. Kelly Kinnish

Licensed psychologist and the Director of the National Center on Child Trafficking at Georgia State University in Atlanta GA. She has over 25 years' experience working with maltreated and at-risk children and families in clinical, research and administrative capacities, with a focus on child trafficking for the past 15 years. She was previously the Clinical Director at the Georgia Center for Child Advocacy – the CAC serving metro Atlanta – where she initiated two trafficking-specific federally funded projects focused on improving the well-being of trafficked youth: Project Intersect and the Envision Project.
